THE COMPANY

THE COMPANY

Stonetech was founded in 1975 in Heraklion, Crete and specializes in natural stones and engineered surfaces processing and trading.

With two production units, three showrooms and exclusive access in Greek quarries, Stonetech is a globally established company.

The company offers a full range of services, from quarrying to the application of the final product.

M. Tzobanakis sculpture at the main show room in Heraklion Crete

HISTORY & MILESTONES

1975

Company is founded by Manolis Gonianakis in Heraklion, Crete.

1981

The first production unit opens in Heraklion.

2006

Company's name changes to Stonetech and is relocated to a newly acquired establishment with cutting edge technologies, covering an area of 3.500sq.m.

2013

New branch opens in Athens and the factory in Schimatari, Thiva. Export and wholesales activity starts.

HISTORY & MILESTONES

2014

Stonetech becomes the exclusive distributor of Neolith & Quarella in Greece.

2014

The company obtains the exclusivity of Silver Cloud marble through its first quarry in Volos.

2016

Stonetech Pools is founded, specialized in pools products with natural stones.

2021

Stonetech introduces the new Showroom in Oinoi. At the covered area of 3,000m², the slabs of our marble quarries, and other unique materials from around the world are displayed. The company adds one more quarry to the its portfolio, the world-famous Aliveri Grey marble.

PHILOSOPHY

At the heart of our philosophy is building relationships with our customers & partners based on trust. Consistency in the projects we undertake and the supply of the highest quality services and products create long-term bonds in all our collaborations.

At Stonetech, every piece of natural stone and engineered surface has a unique story to tell and, every project has a unique purpose to serve, to inspire the people who will live in it.

OUR PEOPLE

At Stonetech, first and foremost, we invest in our people. Our products are manufactured and promoted by experienced and well-trained staff, always ahead of the curve.

Considering the peculiarities of each project and product, our team follows a specific methodology in researching, analyzing, and product testing to propose to our clients the most appropriate solution.

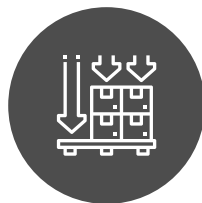

ACTIVITIES

Our company has an extensive network of partners, supplying our products in the international market.

Our blocks, slabs, and cut to size products reach the four corners of the world, through the department of exports and wholesales.

Our procurement department develops strategic partnerships and imports materials of exceptional quality at competitive prices. Our company responds to the demand of our customers, for a variety of materials, speed of delivery, and cost.

The projects & design departments have at their disposal the full range of materials and special finishes to propose the most suitable products and solutions to our customers, for the projects they undertake.

WHOLESALES & EXPORTS

Stonetech has access to top quarries nationally and internationally.

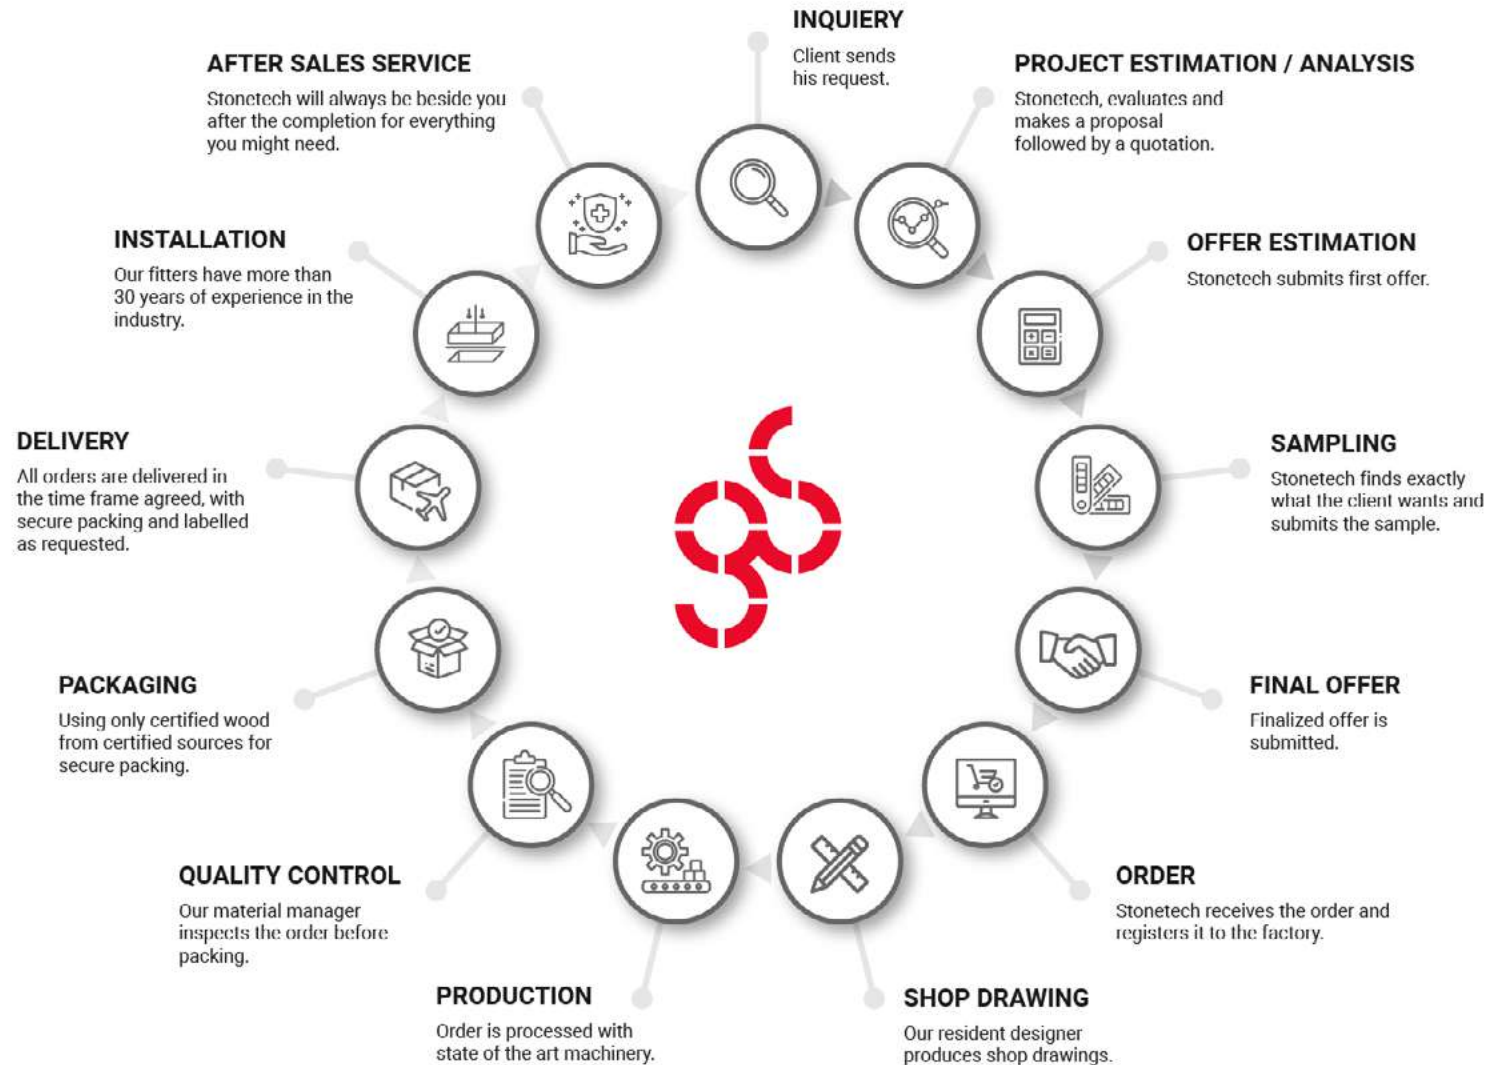

Our goal is to provide our customers with high-quality materials and export Greek marbles throughout the world.

The export and wholesales department is highly specialized in selecting appropriate materials, blocks, and slabs, supplying our network with natural stones for every need.

Through its activity, the company contributes significantly to the dissemination of Greek marble in the global market.

360° PROJECTS SERVICE

PROJECT ANALYSIS & DESIGN

With inspiration and experience in innovative and functional solutions, the design department can propose and implement highly specialized and demanding projects.

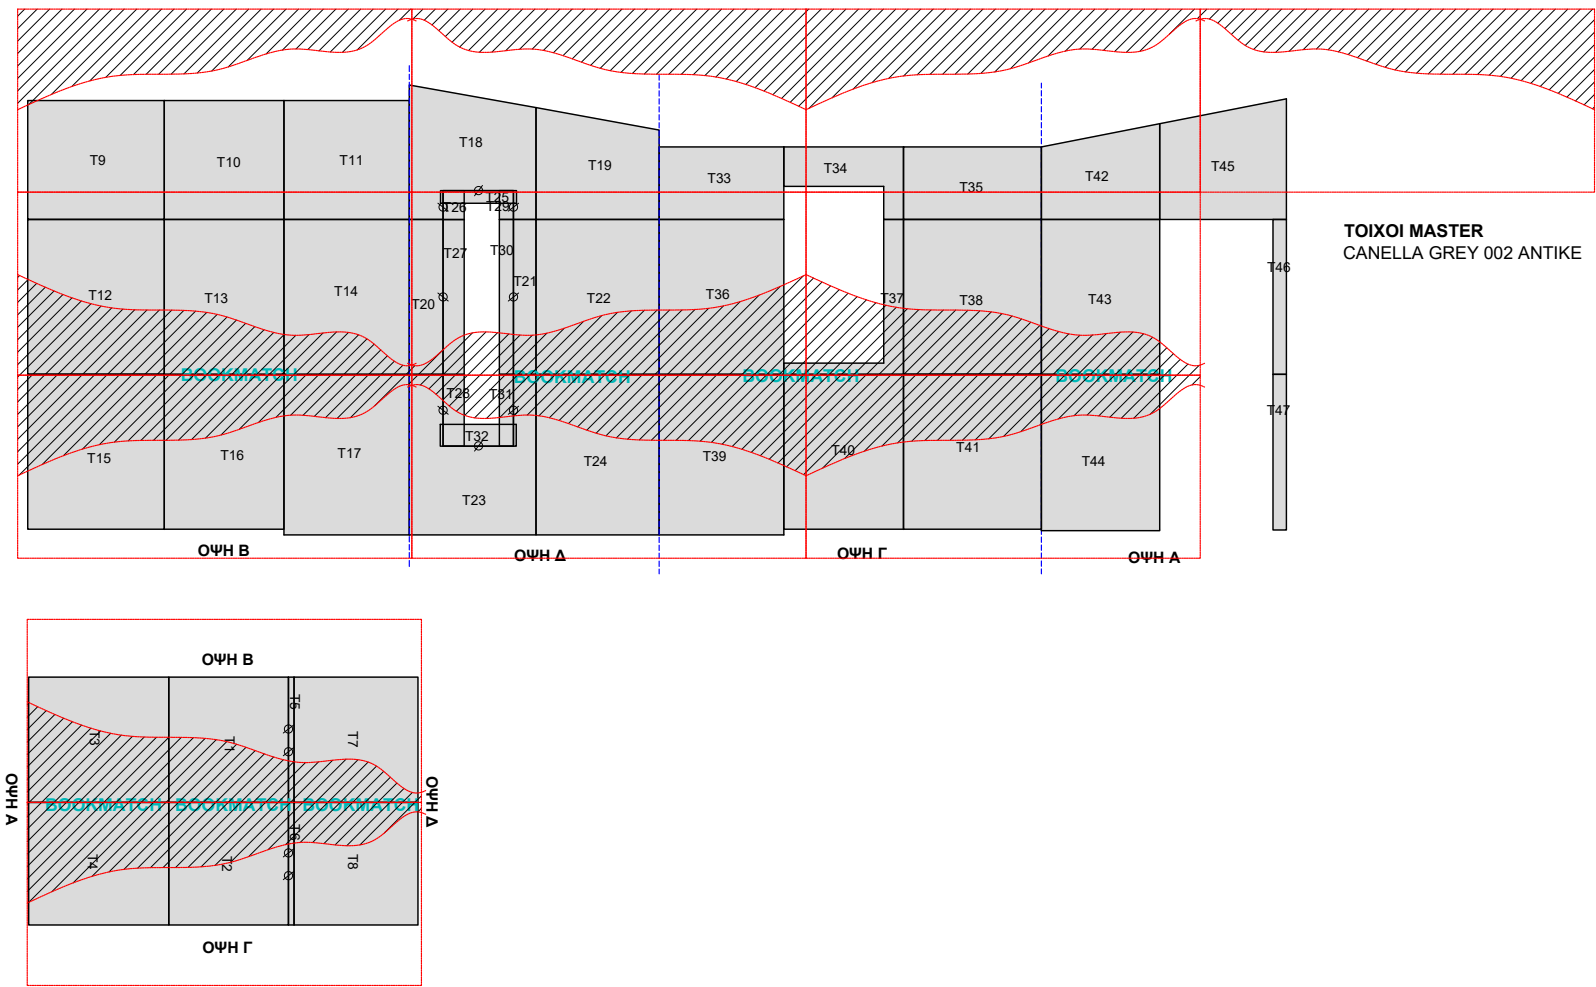

The design department is responsible for the curation and overview of the project cycle, monitoring the qualitative outcome of each product delivered

DIGITIZED PRODUCTION PROCESS

- Order management
- Drafting
- Slab Management
- Photo Capturing / Digitization
- Edge Polishing- Finishing
- Surface final treatments – Sealing
- Quality control - Labeling
- Packaging & Loading

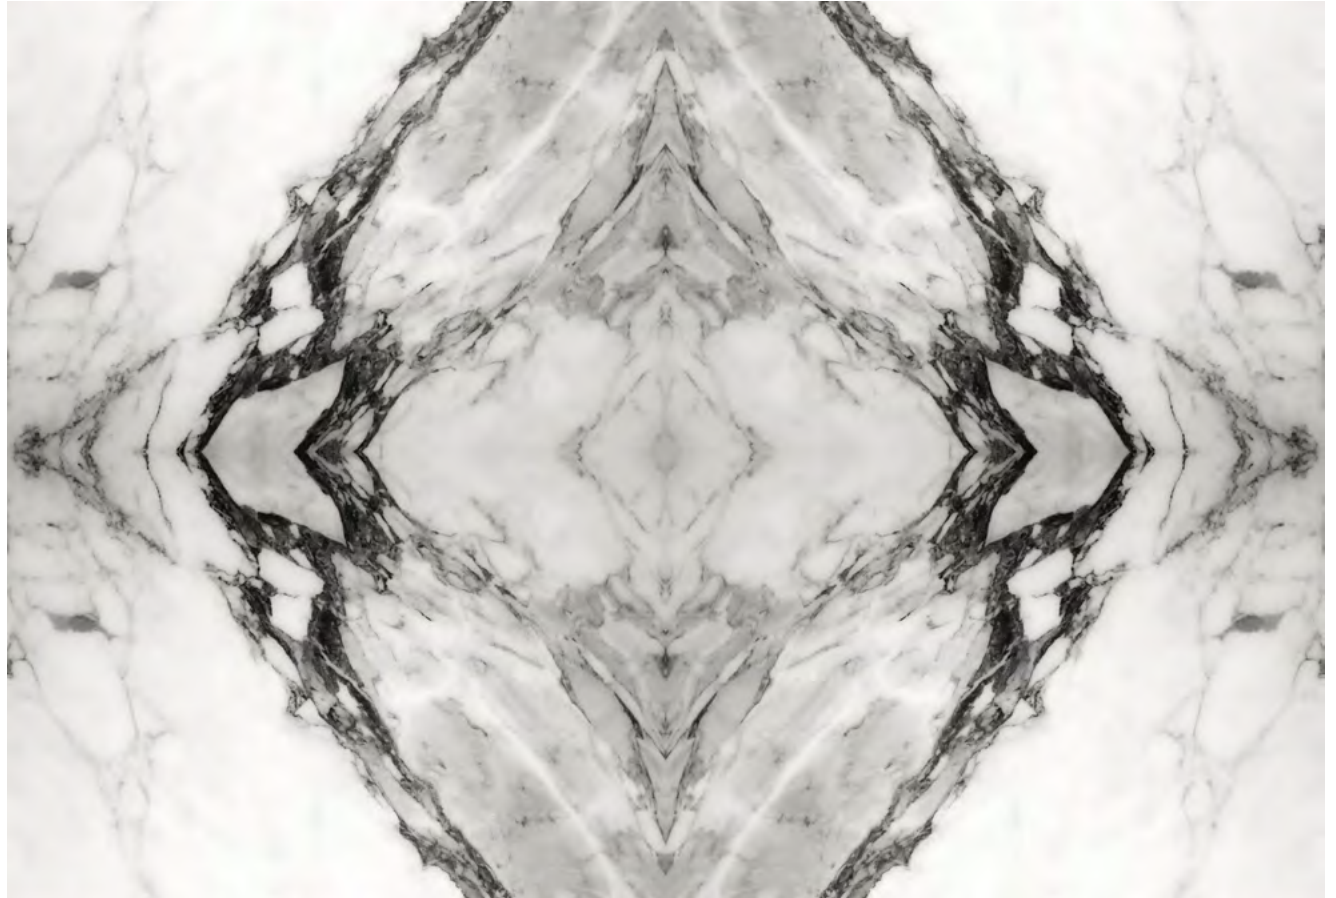

CUTTING LIST CREATION

CUTTING LIST CREATION

The design department provides drawings in detail, of applications such as book match, while the production team applies the designs on the slabs with shop drawings.

MACHINERY & EQUIPMENT

At Stonetech, our equipment consists of a series of automated cutting and processing machines for marbles, natural stones, and surfaces.

The continuous investment in equipment and its upgrade to Industry 4.0 standards is an advantage of the company.

Both production units have state-of-the-art machines and highly skilled operators.

NATURAL STONES COLLECTION

ALIVERI GREY

EXCLUSIVITY

Aliveri Grey marble quarry

Aliveri Grey is a world-famous quarry and, its marble has been placed in many projects nationwide and abroad.

It is a chic and warm, dark grey marble ideal for modern spaces. Its silver shades and white veins add light and natural shine where it is applied.

Aliveri Grey is a durable and multipurpose marble with excellent mechanical and chemical properties, suitable for indoor and outdoor applications, such as flooring and cladding, decorative applications, and pool tiles.

Stonetech supplies Aliveri Grey marble in blocks, slabs, and cut to size and in all types of finishes.

The current production capacity is at 10.000 tons per year, yet it is estimated to be doubled within a year, following our investments.

Available finishes:

Polished - Honed - Sandblasted - Bush hammered - Brushed

SILVER CLOUD

EXCLUSIVITY

Silver Cloud marble quarry

Silver Cloud is a unique marble quarried in Volos, Greece.

Standing in the perfect balance between the warm and cold colors, this surface gives a sense of luxury and timeless design.

Silver Cloud has excellent frost resistance making it highly appealing for projects in North Europe and Russia. Its high quality properties and its water absorption resistance make it ideal for many types of indoors and exterior applications as well as for pool tiles & copings.

Its light grey color with white veins make it suitable for wall cladding, book match applications, and flooring. Silver Cloud has been widely used for decorative items and furniture.

It has been placed in numerous projects in Europe, Russia, Indonesia, South America, the USA, and many more.

Stonetech supports all requests of Silver Cloud in blocks, slabs, cut to size projects, and special requests.

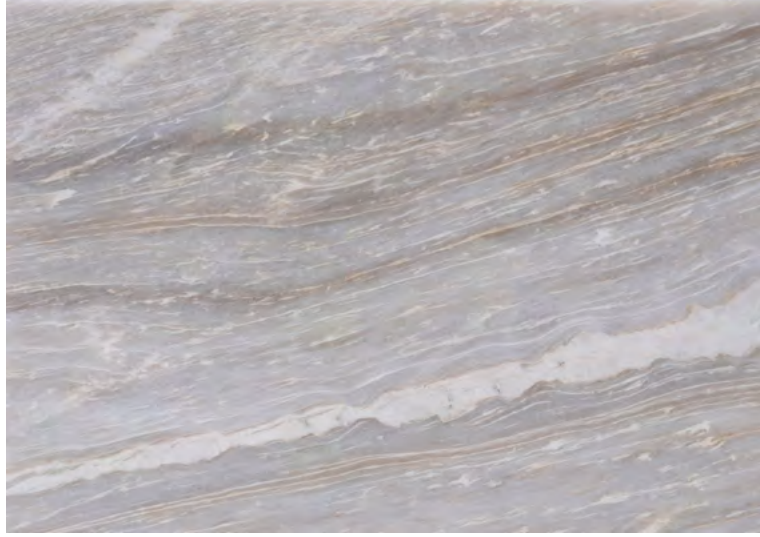

The quarry's production capability is about 15.000 tons per year and is expected to increase to 30.000 tons within the next three years, following our investments.

Available finishes:

Polished - Honed - Sandblasted - Bush hammered - Brushed
